## 1.5. Instalação do Wordpress local

**LocalWP** é o aplicativo da *Flywheel* para instalar o WordPress no seu computador. Você pode usar o Local no Windows, Mac e Linux para aprender e praticar os recursos do WordPress.

O aplicativo instalará automaticamente o WordPress e iniciará seu progresso em poucos minutos. Isso significa que você não precisa baixar e perder tempo criando banco de dados.

Você pode concluir o processo de instalação e configuração em poucos minutos para fazer login no painel de administração do WordPress. É super fácil em comparação com as ferramentas gerais de configuração de servidor local, como XAAMP e WAMP.

## The #1 local WordPress development tool

An effortless way to develop WordPress sites locally

[CREATE AN ACCOUNT](#) [OR DOWNLOAD FOR FREE >](#)

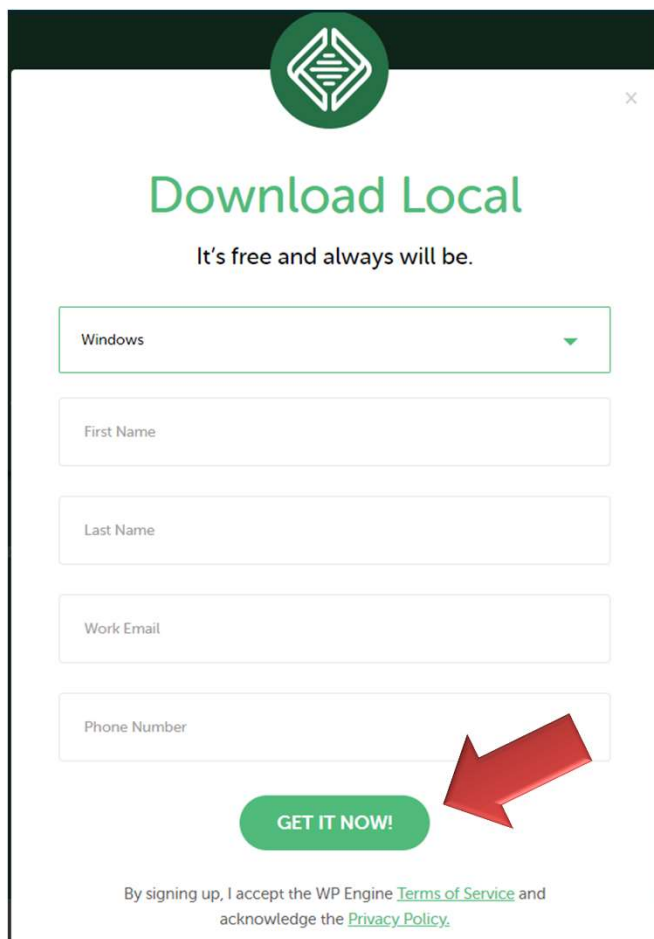

The screenshot shows the Local WordPress development tool interface. On the left, a sidebar lists several local sites: APRIL'S PHOTOGRAPHY, BRY BO'S TAE BO STUDIO, FAUNOGRAPHY, JOE'S COFFEE SHOP, MODERN BUILDZ, OBJECTIVE REASONING, ROB'S BOTS, and TORSION BASKETBALL ACAD... The 'Rob's Bots' site is selected. The main panel displays the configuration for this site, including the Live Link URL, Username, and Password. A red arrow points to the 'DOWNLOAD' button in the top navigation bar.

The screenshot shows a form titled "Download Local" with the subtitle "It's free and always will be." The form includes a dropdown menu for "Windows", and input fields for "First Name", "Last Name", "Work Email", and "Phone Number". A green button labeled "GET IT NOW!" is at the bottom, with a red arrow pointing to it. At the very bottom, there is a disclaimer: "By signing up, I accept the WP Engine [Terms of Service](#) and acknowledge the [Privacy Policy](#)."

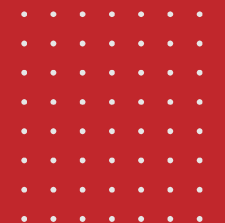

The screenshot shows a confirmation screen titled "Your download is starting!" with the text "Your download should start automatically. If it doesn't, [click here](#)." The screen has a green header with a logo and a close button in the top right corner.

**SENAI**

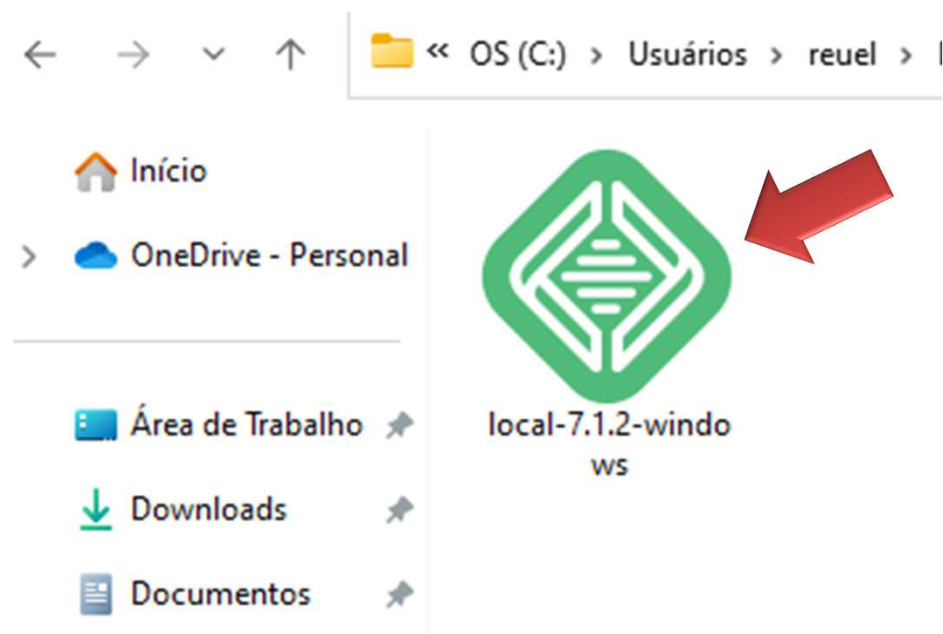

Vá para o site oficial do Local WP e clique no botão **"Download"**. Local está disponível para plataformas Windows, Mac e Linux.

Portanto, selecione seu sistema operacional e preencha os dados cadastrais para baixar o pacote de instalação.

**SENAI**

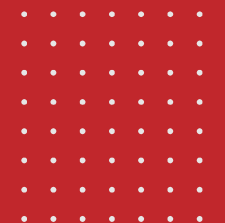

## Instale o aplicativo local

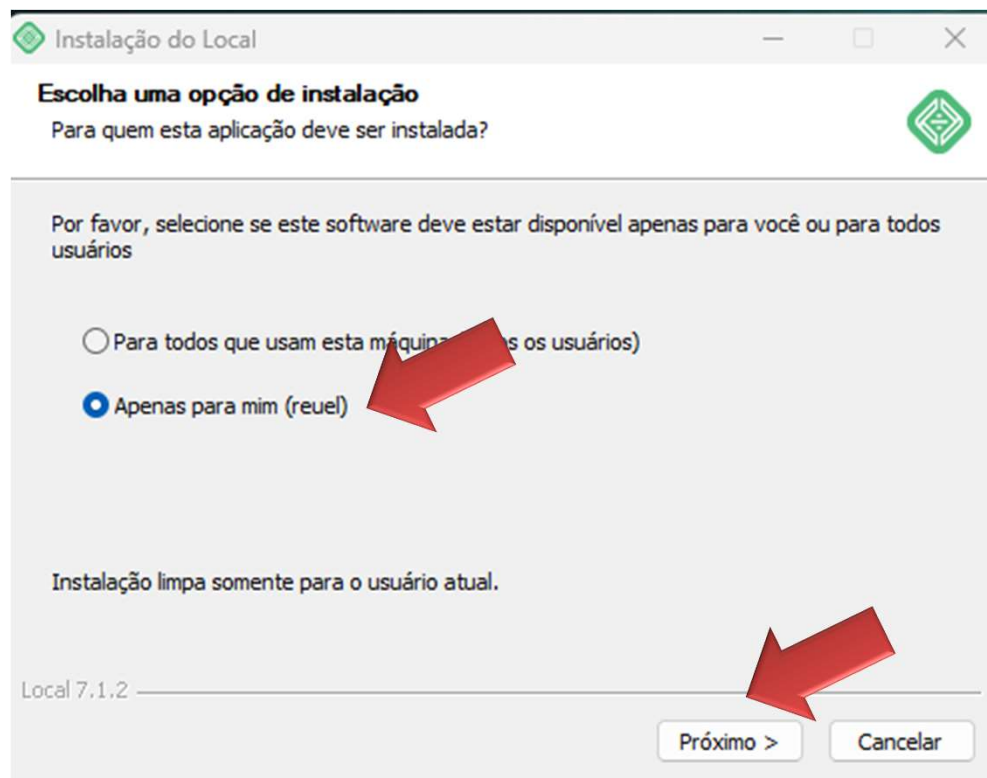

**SENAI**

Após o download, clique duas vezes no arquivo de instalação para iniciar o processo.

**SENAI**

# Instale o aplicativo local

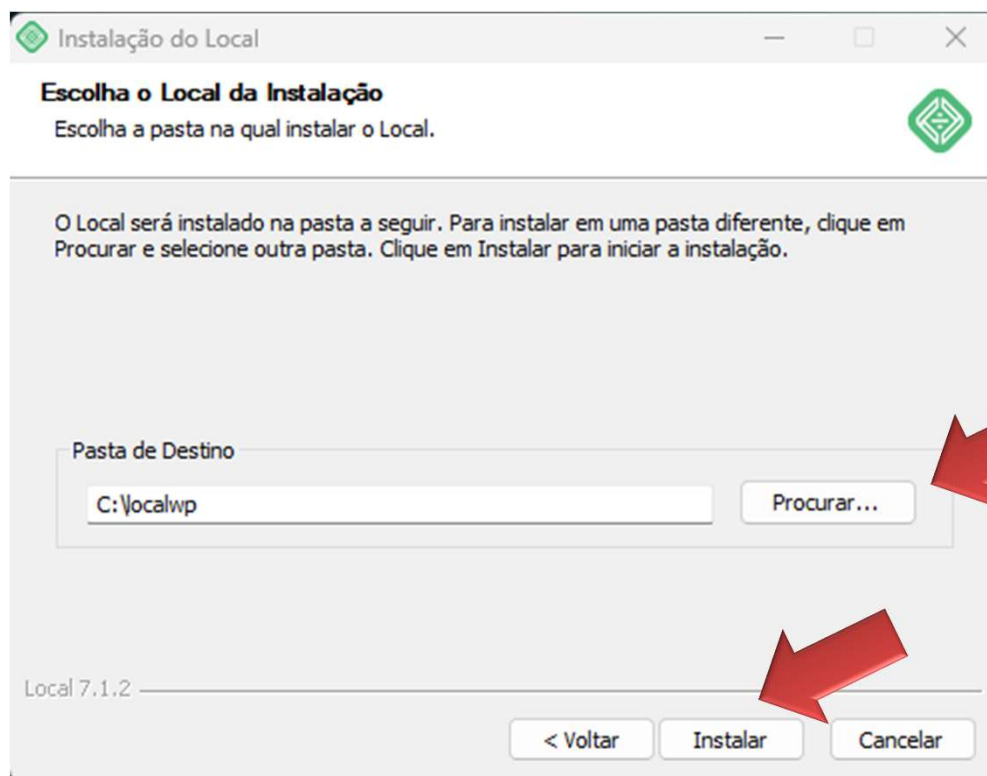

**SENAI**

Selecione a opção “**Apenas para mim**” e clique em “**Próximo**”.

Antes de ver o aplicativo, você terá que criar ou logar em uma conta de acesso. Clique em **“Create a free account”**.

**SENAI**

# Instale o aplicativo local

Para instalar o **LocalWP** é necessário pausar o antivírus temporariamente e ficar atento na hora de liberar o firewall do Windows, pois o localwp necessita de acesso para algumas portas.

# Instale o aplicativo local

Is it ok to enable error reports?

Help us make Local better by enabling error reporting.

This lets us find and fix bugs faster, helping you stay focused on building with WordPress!

You can change this in Preferences (under Advanced) at any time.
